

The Great Trail/Le Grand Sentier – created by Trans Canada Trail – is the world’s longest recreational trail. It is used by millions of Canadians and international visitors to experience our country’s legendary wilderness, cycle historic rail trails, explore provincial and territorial capitals, canoe the routes of early explorers, visit national and provincial parks and historic sites, commute to and from work, and enjoy the benefits of safe, healthy, active living.

Trans Canada Trail (TCT) is responsible for facilitating the planning and development of The Great Trail, working closely with provincial/territorial partners and local trail groups and municipalities; raising funds for local and national trail initiatives; and marketing and promotion of the Trail.
